

SLAB-FAST

APPLICATION

Dragon Alfa Slab-Fast is a dry pre-blended material which can be used to set paving stones and edgings in a fast and easy way

DESCRIPTION

Dragon Alfa Slab-Fast is ready to use straight from the bag as a dry mix or if required mixed with water to produce a workable mortar mix.

PACKAGING

Packed in 25kg multi layer paper bags, including a moisture resistant polythene membrane.

48 x 25kg per pallet = 1.2 tonnes

STORAGE

Dragon Alfa Slab-Fast is a cement based product and must be stored in unopened bags, clear of the ground in cool, dry conditions.

USAGE

Dragon Alfa Slab-Fast is a dry ready blended material, which makes laying a patio simple and easy.

SETTING THE SLAB

Compact the sub-base so that it is firm and level. Pour out the Slab-Fast and compact down to form a flat surface, if required, build in any fall to allow water run-off. Lay the slabs, consolidating them firmly into position - check levels regularly. Brush off any excess material from the patio surface. One 25kg bag of Dragon Alfa Slab-Fast is sufficient to set approximately four standard slabs.

HEALTH AND SAFETY

Dragon Alfa Slab-Fast is a cement based product and therefore (as with wet concrete or mortar) may cause irritation, dermatitis or alkali burns. Contact between cement powder and the skin in conjunction with body fluids may also cause irritation, dermatitis or alkali burns. There exists a serious risk of damage to the eyes - Always wear suitable protective clothing and eye wear. In case of contact with the eyes, rinse immediately with clean water and seek medical advice.

- **Contains Chromium (VI) which may cause an allergic reaction**
- **Keep out of reach of children**
